

Article 10

Sign Standards

Intent:

The intent of these sign regulations is to avoid proliferation of signs; encourage design and placement of signs that are legible and effective for communication in the context of their location and surroundings; promote principles of quality design in community development; and enhance the city's and county's economic development and growth.

10 Sign Standards

General Sign Standards

These general sign standards apply to all zoning districts.

- A. **General Requirements:** Except as otherwise provided in this Article, it shall be unlawful for any person to erect, construct, enlarge, or move any sign without first obtaining a sign permit. Each use is permitted to have primary, secondary, and temporary signs as defined and allowed in this Article.
- B. **Sign Illumination:** Signs may be illuminated according to the requirements of Section 9.4(C).
- C. **Permitted Signs:** Permitted signs shall be as specified by the Permitted Signs Table included at the end of this Article. A permit shall be required unless otherwise specified.
- D. **Prohibited Signs:** The following signs are prohibited in all zoning districts. Any signs that are not expressly listed as either permitted or exempt shall be prohibited.
 1. **Animated Signs:** Signs that flash, change copy or image more often than every 6 seconds, rotate by any means (except for barber poles), move or have the appearance of movement (except as permitted in this Article).
 2. **Imitation of Traffic Control Devices:** Signs that by color, location or design resemble or conflict with traffic control devices.
 3. **Encroaching Signs:** Signs attached to public light poles, street signs, traffic control signs, utility poles or trees, and other signs located in the public right-of-way not permitted by this Article or approved by the Board of Public Works and Safety or Board of County Commissioners, as appropriate.
 4. **Vehicle Signs:** Signs placed on vehicles parked or being driven on public or private property primarily for the purpose of displaying the sign, except:
 - a. Signs displayed on vehicles parked or being driven for the purpose of lawfully making deliveries, sales or service;

AGRICULTURAL	A
SINGLE-FAMILY RESIDENTIAL	S
MULTI-FAMILY RESIDENTIAL	T/M
COMMERCIAL	C
PUBLIC / SEMI-PUBLIC	P
INDUSTRIAL	I

10 Sign Standards

General Sign Standards

- b. Signs displayed on vehicles that are customarily and regularly used for transporting persons or properties;
 - c. Signs displayed on vehicles parked at the driver's residence during non-business hours or for incidental purposes, or parked in a residential area for similar incidental purposes.
 - 5. **Poster Signs:** Posters, placards, and other similar signs attached to light poles, gas station canopy supports, trees, and elsewhere outdoors that are not included as permitted permanent or temporary signs by this Article.
 - 6. **Roof-mounted Signs:** Signs that are mounted to the roof of a structure or are mounted to the wall of a structure and extend higher than that wall; however, this does not apply to projecting signs that meet the requirements of this Article.
 - 7. **Off-premises Signs and Billboards:** Signs that relate to or advertise an establishment, product, merchandise, service or entertainment which is not located, offered, produced, manufactured or furnished at the property on which the sign is located.
 - 8. **Portable Signs:** Signs that are not permanently attached or designed to be permanently attached to the ground, a building, or a pole or other temporary or permanent support, that are not included as permitted temporary signs in this Article. This includes any signs that are, or are designed to be, mounted on wheels or built to roll or slide or to be moved.
- E. **Exempt Signs:** The following signs shall not require a permit if erected, constructed, and used as specified below.
- 1. **Agricultural Signs:** Agricultural signs located on a farm for the purpose of identifying the farm and agricultural products used on-site.
 - a. *Farm Identification:* The farm identification sign shall not exceed 16 square feet in area or 10 feet in height.
 - b. *Agricultural Products Signs:* Agricultural products signs shall not exceed 10 square feet in area or 7 feet in height.
 - 2. **Construction Signs:** Construction signs, such as those used to identify a builder, developer, designer, lender, and/or future occupant.
 - a. *Farms and Single and Two-Family Dwellings:* One sign per lot, with a maximum area of 6 square feet and a maximum height of 6 feet. Display time shall be limited to 6 months, during the actual construction.
 - b. *All Other Uses:* Two signs per road/street frontage per lot with a maximum area of 32 square feet per sign and a maximum height of 10 feet per sign. Display time shall be limited to the period of construction.

10 Sign Standards

General Sign Standards

3. Governmental & Institutional Flags: The flag(s) of any country, state, unit of local government, or institution of higher learning, provided that flags and poles shall not exceed the height limit of the zoning district in which they are located.
4. Utility Signs: Utility signs include both (a) those necessary to mark cables and lines for public and private utilities and (b) markings on utility-owned water towers identifying either the community served or the utility.
5. Decorative Flags: Any flags, banners or similar items that contain colors and/or graphic designs only, with no commercial messages. No such flag shall exceed 32 square feet in area or be affixed at a height greater than 25 feet from ground level.
6. Pennants & Streamers: Pennants, streamers and other similar signs shall be in use for no more than 10 days in an calendar year, per use.
7. Yard Cards: Portable, temporary signs used to provide notice of special events such as birthdays, anniversaries, etc.; provided that such signs are located on a residential property, do not exceed 32 square feet in area or 6 feet in height, and are in use for no more than 3 days in any calendar year, per lot.
8. Governmental Signs: Governmental signs, including but not limited traffic control devices, street signs, historical markers, city entry announcements, and legal notices. In no instance shall this exemption be interpreted as also excluding local government structures and properties from the other requirements of this Article.
9. Identification Signs: Identification signs with a maximum of 1 per structure and not exceeding 2 square feet for residential structures and 4 square feet for all other structures.
10. Incidental Signs: Incidental signs, as required by state or federal law at the minimum required sizes and heights.
11. Real Estate Signs: Real estate signs, advertising the property on which they are located as being "for sale" or "for lease" (including financing options and other special promotions), subject to the following:
 - a. *Residential Parcels Less Than 3 Acres and Containing Fewer than 4 Dwelling Units*: One real estate sign shall be permitted per frontage, with a maximum area of 6 square feet per sign.
 - b. *All Other Residential Parcels and All Other Uses*: One real estate sign shall be permitted per frontage, with a maximum area of 32 square feet and a maximum height of 10 feet per sign.

10 Sign Standards

General Sign Standards

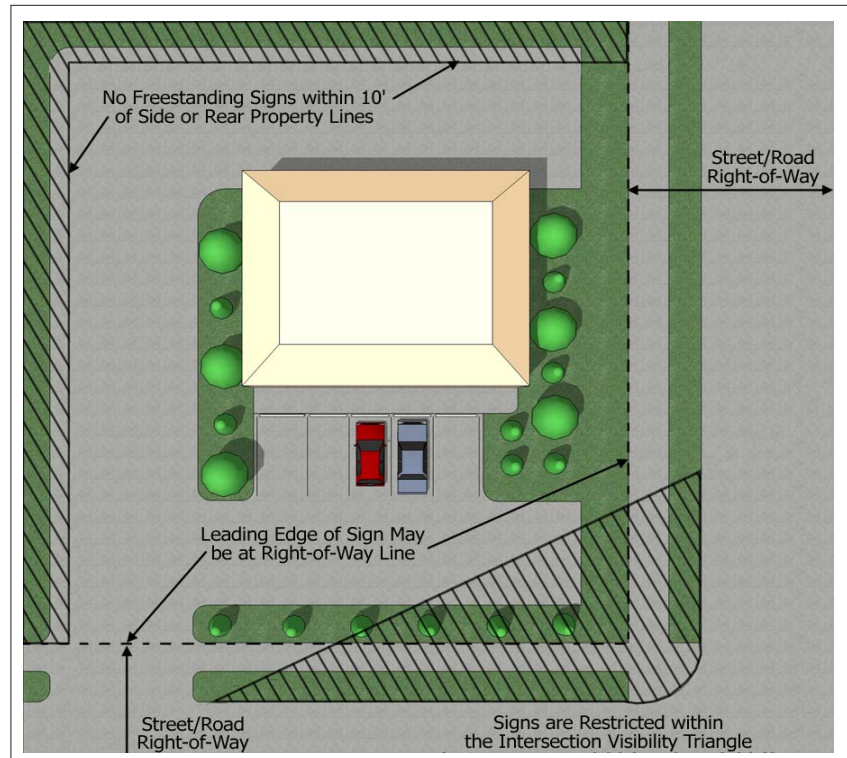

12. Political / Expression Signs: An unlimited number of political signs and signs of personal expression shall be permitted subject to the following:
 - a. *Residential Uses*: Maximum area of 6 square feet and maximum height of 3 feet per sign.
 - b. *Non-Residential Uses*: Maximum area of 32 square feet and maximum height of 10 feet per sign.
 - c. *Setbacks*: All such signs shall be located at least 5 ft. from any side or rear property line.
 - d. *Political Sign Removal*: All political signs intended to support candidates or issues in a particular election shall be removed within 5 days after that election.
 13. Street Numbers: Letters and numbers identifying the address of a use or property, provided that all applicable requirements of the Municipal Code are met.
 14. Sponsorship Signs: Sponsorship signs, such as those located inside athletic and other community facilities, provided that such signs are oriented to those visiting or using the facility.
 15. Internal Signs: Signs internal to a site or property that cannot be read from any off-site location, such as menu boards, credit card decals, etc.
 16. Holiday Decorations: Signs and other displays erected to note or celebrate a particular holiday.
- F. **Sign Location**: All signs shall be located consistent with the following requirements:
1. Setbacks: The leading edge of a sign may be at the right-of-way. No freestanding sign shall be placed closer than 10 feet to any side or rear lot line.
 2. Right-of-Way: No sign shall be permitted in the public right-of-way unless approved by the Board of Public Works and Safety or Board of County Commissioners, as appropriate.
 3. Intersection Visibility: Signs located within the visibility triangle, as described in Section 7.3(D)(5), shall be subject to the following:
 - a. No portion of the sign frame or cabinet shall be located between a height of 2½ feet and 10 feet above the centerline grades of the intersecting streets and drives.
 - b. If one supporting post is used, it shall not be wider than 18 inches in diameter. If 2 posts are used, no single post shall be more than 12 inches in diameter and all posts shall be at least 3 feet apart. No more than 2 supporting posts may be utilized.

Permitted Sign Locations

(Figure 10.1)

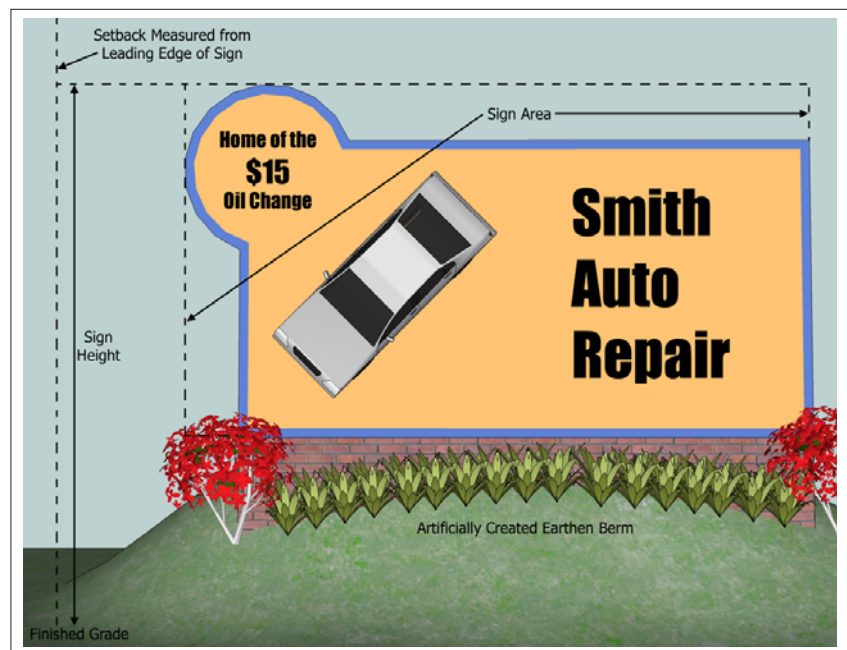

10 Sign Standards

General Sign Standards

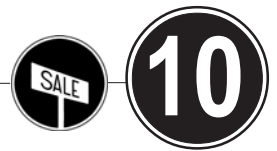

Sign Measurement Illustration

(Figure 10.2)

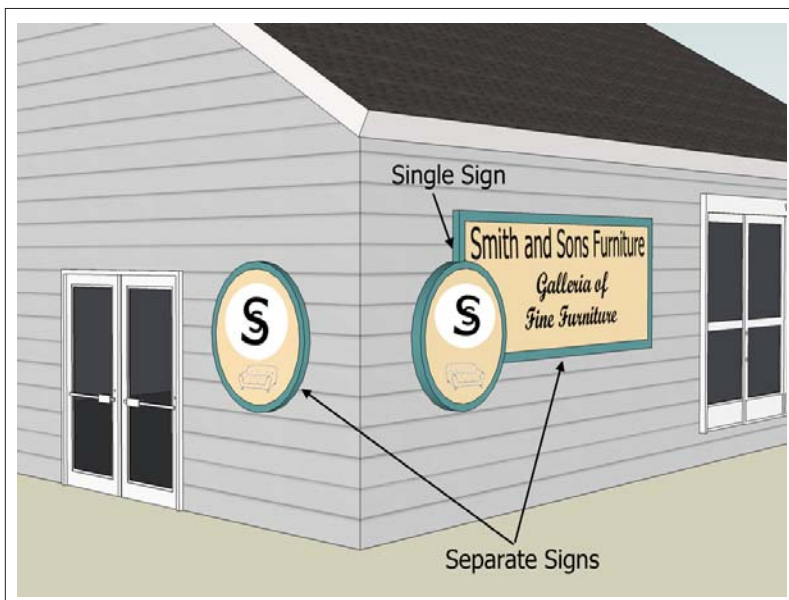

10 Sign Standards

General Sign Standards

G. Sign Measurement:

1. **Sign Height:** The height of a sign shall be measured as the vertical distance from the highest point of the sign to the finished grade of the ground immediately beneath the sign, including the height of any artificially constructed earthen berms.
2. **Sign Area:** The area of a sign shall be the smallest rectangle that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the display, the background of the display, or used to differentiate the sign from the backdrop or structure against which it is placed; but not including any supporting framework, bracing or decorative fence or wall when the fence or wall otherwise meets the requirements of this Ordinance and is clearly incidental to the display itself.
 - a. **Multiple Faces:** The area of a sign that has 2 or more faces shall be measured by including the area of all sign faces. However, if 2 faces are placed back-to-back, are of equal size, and are no more than 2 feet apart at any point, the area of the 2 back-to-back faces shall be counted as one face. If the 2 back-to-back faces are of unequal size, the larger of the 2 sign faces shall be counted as the one face.
 - b. **Separate Signs:** Each sign portion which is physically and visually separated from other portions shall be considered to be a separate sign. Spaces between lines of type, letters, logo elements, etc. are not to be construed as physical separations in instances where these elements form a single composition intended to be viewed as a whole.

Separate Signs Illustration

(Figure 10.3)

10 Sign Standards

General Sign Standards

- H. **Requirements by Sign Type:** The following development requirements shall apply to each sign type.
1. **Awning Signs:** Awning signs shall be considered as a type of wall sign and shall count toward the total number and area of wall signs permitted by this Article.
 - a. Awning signs shall be limited to those printed or sewn on awnings mounted on the facade of the primary structure.
 - b. Awning signs shall not be backlit.
 2. **Wall Signs:** The total wall sign area permitted shall be calculated using the area of all walls facing an adjacent street or road. The calculation shall include the area of windows, doorways and other similar features.
 - a. *Multiple Ground Floor Uses:* For buildings and/or lots with multiple ground floor uses or tenants, the sign area shall be determined by taking that portion of the front walls of the building applicable to each tenant and computing sign requirements based only on that portion of the total wall. Each ground floor occupant shall be considered a separate use if each is structurally separated from adjoining occupants and each has a separate entrance to the outside.
 - b. *Multi-story / Multi-user Buildings:* Multi-story buildings with separate ground and upper floor users shall be permitted additional wall signage. The entire wall area of the building facing an adjacent street or road shall be used to calculate both the allowed sign area for ground floor users and the allowed sign area for upper floor users.
 - c. *Sign Mounting Location Requirements:* Wall signs may be located on any wall of a primary structure, however, wall signs for a specific ground floor occupant in a multi-tenant structure shall be located on a wall associated with that tenants' space. Wall signs may not extend above or beyond the wall on which they are mounted.
 3. **Freestanding Signs:** Where permitted, freestanding signs shall be limited to a maximum of 1 per street/road frontage per lot.
 - a. *Landscaping Requirements:* All freestanding primary signs shall be landscaped, consistent with Section 8.1(C)(5).
 - b. *Multiple Use Lot Signs:* Freestanding signs for multiple use properties shall be considered as having a combination of primary and secondary elements. The primary element for a freestanding sign for lots that include a structure or center housing multiple uses shall only describe the facility as a whole. This may include the name of the multiple-use facility, the name of a primary user of the facility, or similar description. Secondary elements, if provided, may describe any other uses or activities within the facility other than those noted in the primary elements.

10 Sign Standards

General Sign Standards

- c. **Multiple Lot Signs:** Uses located on individual lots within the same approved preliminary plat may also make use of a single freestanding sign consistent with the provisions of Section 10(H)(3)(b) and Table 10.1. These signs may include a maximum of 2 additional secondary elements; with each of these additional secondary elements being directly related to a use located off-site of the property on which the sign is located. In addition, any off-site use that makes use of the common freestanding sign shall not be permitted any other freestanding signs, including any on the property on which it is located.
4. **Projecting Signs:** Where permitted, a projecting sign may be used as an alternate for either a wall or freestanding sign. The projecting sign shall count toward the total number and area allowed for the sign type (wall or freestanding) for which the projecting sign is an alternate, up to the maximum allowed for projecting signs in the Permitted Signs Table; however, no projecting sign shall extend further than 36 inches horizontally from the wall to which it is attached. No projecting sign, at its lowest point, shall be less than 8 feet above grade level.
5. **Development Entry Signs:** Development entry signs shall be permitted only for the identification of manufactured home parks, multi-family residential complexes and major subdivisions. For the purpose of this section, a subdivision shall be defined as all lots included in any primary plat.
6. **Interstate Oriented Signs:** All properties that are located in the CR, Regional Commercial Center zoning district and are located either (1) within 2,500 feet of the center point of the interchange at I-65 and State Road 46 or (2) within 2,500 feet and on the west side of the center point of the interchange at I-65 and State Road 58 shall be permitted an interstate oriented sign in addition to any other freestanding sign that is permitted. The sign shall be located in the rear yard, with the base behind the actual structure of the principal building. For lots without a rear yard (i.e., double frontage lots), the rear yard shall be the yard opposite the yard adjacent to the street or road with the highest classification according to the Thoroughfare Plan.
7. **Banner Signs:** Banner signs may be either mounted to a wall or other vertical surface or may be freestanding. No wall-mounted banner sign shall exceed the height of the wall. No banner sign may be mounted on a roof.
8. **Inflatable Signs:** Inflatable signs shall be tethered to the ground and may not be located in any required parking spaces or required landscaping areas.

Amendments:

*Section 10(H)(3)(c) revised
per City Ord. 5, 2009
(2.17.09) & County Ord. 2,
2009 (3.2.09)*

10 Sign Standards

General Sign Standards

9. Beacon Sign: Beacon Signs, such as searchlights and other similar lights, shall not be located in any required parking spaces or required landscaping areas. Beacon signs shall be directed upward or otherwise away from any adjacent street or road.
10. Changeable Copy Sign: Changeable copy signs shall be permitted as part of a primary wall or freestanding sign in the Commercial, Public/Semi-Public and Industrial zoning districts.
 - a. *Number*: No more than 1 changeable copy sign shall be permitted per frontage, regardless of the number of wall and/or freestanding signs permitted.
 - b. *Combined Area*: The combined area of the changeable copy sign and the area of the non-changeable elements of the sign shall not exceed the maximum area allowed for the primary wall or freestanding sign.
 - c. *Maximum Percentage*: The area of the changeable copy elements shall not exceed 75% of the area of the non-changeable elements. If the total area of the primary sign of which the changeable copy sign is a part is one-half or less of the maximum allowable area for that sign type, however, the changeable copy area may be equal to 100% of the area of the non-changeable copy component.
11. Directional Sign: Directional signs that are visible from the adjacent properties and/or a public street or road shall be as specified by the Permitted Signs Table. Any directional signs located internal to a site and not legible from adjacent properties, streets, or roads shall be exempt from the requirements of this Article.
12. Directory Sign: Directory signs that are visible from the adjacent properties and/or a public street or road shall be as specified by the Permitted Signs Table. Any directory signs located internal to a site and not legible from adjacent properties, streets, or roads shall be exempt from the requirements of this Article. Directory signs shall be permitted in addition to any other wall or freestanding signs specified by the Permitted Signs Table.
13. Window Sign: Any window sign that is installed as a permanent installation shall meet the requirements of the Permitted Signs Table. Temporary window signs shall be exempt from the requirements of this Article.

10 Sign Standards

General Sign Standards

14. Time & Temperature Sign: Time and temperature signs shall be permitted as part of a primary wall or freestanding sign in the Commercial, Public/Semi-Public and Industrial zoning districts. The time and temperature sign shall count toward the total number and area allowed for the sign type (wall or freestanding) of which it is a part. No more than 1 time and temperature sign shall be permitted per frontage, with a maximum area of 12 square feet, regardless of the number of wall and/or freestanding signs permitted. Time and temperature signs may not include any commercial messages or other changeable copy (electronic or otherwise).
15. Suspended Sign: No suspended sign, at its lowest point, shall be less than 8 feet above grade level.
16. Flag Sign: Flag signs bearing commercial messages shall be as specified by the Permitted Signs Table. Flags of any country, state, unit of local government, or public institution of higher learning shall be exempt from these requirements, provided that the flag and pole shall not exceed the height requirements of the zoning district.
17. Pedestrian Entry Sign: Pedestrian entry signs (as known as sandwich boards, sidewalk signs, etc.) shall be limited to locations within 10 feet of the primary customer entrance to the use with which they are associated. No pedestrian entry sign shall be placed in a manner that reduces the width of a required sidewalks to less than 5 feet. Also, no pedestrian entry sign shall be located in any required parking space, required buffer yard, or required landscaping area. Any signs located in a public right of way shall be subject to approval of the Board of Public Works or the Board of County Commissioners, as applicable.

Permitted Signs Table (Table 10.1) (page 1 of 2)

Permitted Sign User References																					
(1) <u>Permitted and Conditional Signs</u> : All signs labeled as permitted shall be permitted for any use in the applicable zoning district. All signs listed as conditional may be approved by the Board of Zoning Appeals in association with any conditional use in the applicable zoning district.																					
(2) <u>Requirements by Sign Type</u> : See Section 10(H) for general requirements applicable to each sign type.																					
(3) <u>Park Use Signs in any Zoning District</u> : Park uses located in any zoning district shall be permitted (a) one freestanding sign not exceeding 6 feet in height or 50 square feet in area, (b) 1 wall sign not exceeding 150 square feet in area, and (c) one changeable copy sign meeting the requirements specified for all such signs in the table below.																					
(4) <u>Downtown Commercial District Freestanding Signs</u> : A Freestanding Sign shall only be permitted in the CD, Downtown Commercial Zoning District on a lot that (a) exceeds 2 acres in area and (b) includes a primary structure that has a minimum front setback of 20 feet.
